

**TITLE: COLLEGE SOCIAL ACTIVITIES AND ORGANIZATIONS**

Extra-curricular activities are an integral part of student life at Gogebic Community College. The college encourages student participation in these activities. Interested students may sign up for the activity of their choice by contacting the Director of Outreach and Engagement.

All student activities including dances, assemblies, concerts, and club meetings must be scheduled through the office of the Director of Outreach and Student Engagement. At the beginning of each semester, all clubs and organizations of the college are requested to submit to the Vice President of Student Services a list of proposed club meetings, events, and social activities indicating the time and place of these activities. Additional meetings may be planned but must be scheduled in advance so that room assignments may be made.

Dances and all other social activities sponsored by clubs and organizations of Gogebic Community College shall be held only for registered students of the college and their guests. In special instances, invitations may be extended to other groups. Any college-sponsored activity must be chaperoned with the club sponsor serving as the official chaperon in addition to at least one other faculty or staff member present to assist at the function. The responsibility of admitting duly registered students and the conduct of the students during the event rests with the sponsoring club or organization. Students may be asked to present their activity cards at any college function and should carry it with them at all times.

In the inauguration of new activities, clubs and organizations, students and faculty and advisors should present organization plans to the Vice President of Student Services. All new college organizations and/or publications, in order to receive official sanction, must be approved by the Vice President of Student Services. Approval by the Executive Committee will officially grant recognition and sanction to the organization as a part of the college activity program.
